Dear Mrs Wilson

**Bayswater Power Station Upgrade (SSD-9697)
Commencement of construction Ravensworth Ash Line**

Reference is made to your post approval matter, SSD-9697-PA-9, submitted as required by condition A8(c) of development consent SSD-9697 (the consent) to the Department of Planning and Environment (the department) on 22 July 2022

The department has carefully reviewed the document and acknowledges that AGL Macquarie Pty Limited (AGL Macquarie) intends to commence construction of the Ravensworth Ash Line upgrade on or after 22 August 2022.

It is noted that a letter requesting staging of management plans, strategies and other documents for the Ravensworth Ash Line upgrade has been prepared (SSD-9697-PA-2), but it has not yet been submitted to the department. However, at the time of writing this letter, the status is showing as “lodge” and is assigned to AGL Macquarie.

It is also noted the following management plans, strategies and other documents have subsequently been submitted to the department via the Major Projects Portal for approval by the Planning Secretary and are currently being reviewed by the department:

- Subsidence Plans (condition A16(b))
- Water Management Plan (condition B7)
- Biodiversity Management Plan (condition B12)
- Aboriginal Cultural Heritage Management Plan (condition B29)
- Construction Environmental Management Plan (condition C1)
- Environmental Management Strategy (condition D1)

Please note that all of the above management plans, strategies and other documents must be approved by the Planning Secretary prior to the commencement of construction of the Ravensworth Ash Line upgrade. The department will send separate correspondence regarding each of the above documents.

If you wish to discuss the matter further, please contact myself on 02 65753401 or compliance@planning.nsw.gov.au

Yours sincerely

Heidi Watters
