

# Section 34 reporting table: to be used by suppliers for website publication of information relating to availability of gas

## About the Gas Code

The *Competition and Consumer (Gas Market Code) Regulations 2023* (the Gas Code) commenced on 11 July 2023. The Gas Code's purpose is to facilitate a well-functioning domestic wholesale gas market with adequate gas supply at reasonable prices and on reasonable terms for both suppliers and buyers. The Australian Competition and Consumer Commission (ACCC) monitors and enforces compliance with the Gas Code.

There is a 2 month transition period to enable industry to adapt to new obligations under the Gas Code framework.

Section 34 of Part 6 sets out a requirement for suppliers to publish information relating to the availability of gas. This section is a civil penalty provision.

See section 46 of the Gas Code which sets out a deemed exemption from the requirement in section 34 of the Code for gas EOs issued in respect of 2 or fewer persons.

## How to complete

Section 34 requires that the information that must be published must be set out in a legible and prominent way. It also requires that it must be in a form approved by the ACCC in writing. This 'Section 34 table' is the form approved by the ACCC. Publication should be on the supplier website, and we draw suppliers' attention to the requirement for the information to be set out in a legible and prominent way.

If you will be publishing information on behalf of a joint venture, provide details in the table and submit a notice to the ACCC as required by s44(2) to the attention of Gas Code – Gas Markets Branch at: [gascodes@accc.gov.au](mailto:gascodes@accc.gov.au).

It is an offence to knowingly provide false or misleading information to the ACCC. Refer to section 137.1 of the *Criminal Code Act 1995*.

This table is approved by the ACCC for the purposes of section 34 (10)(b) of the *Competition and Consumer (Gas Market Code) Regulations 2023*
