

Newcastle Community Dialogue Group

Thursday, 1 June 2023

Before we begin, I would like to acknowledge the Traditional Owners of the lands on which we meet today and pay my respects to their Elders past and present.

Agenda

- 1 Open and welcome, apologies, declarations, previous minutes, business arising and correspondence
- 2 Newcastle Gas Storage Facility latest news
- 3 AGL Update

- 4 General business, next meeting and close

Cultural Identity & First Nations

- No major incident, MTIs or LTIs
- Workforce re-structure commenced - ongoing
- Site security upgrades completed
- Cyber security upgrades completed
- Major maintenance activities completed as planned
- Low Pressure continued till last week (Jemena/APA maintenance)
- New EA negotiations ongoing

Environment update (John M)

1. Emergency response exercise completed (amine spill)
 - Review an update Pollution Incident Response Management Plan
 - Remove main office and main conference room from the controlled document distribution list
 - Add updated PIRMP to AEL
 - Remove outdated copies of PIRMP from control room and main office
2. NGSF Drainage Assessment (AECOM) meeting held – no perceived issues for NGSF
3. NGSF Ponds – maintenance requirements being reviewed (liner integrity unknown)
4. Emissions monitoring undertaken this week (H101 heater), and upcoming H501 A, B, C during winter
5. Licence amendment successful – no further noise monitoring required for NGSF unless requested by regulator
6. Medowie offset property – regulator inspection week commencing 19 June (I will be onsite)
 1. Baiting to be undertaken soon for feral cats and dogs
 2. Fencing repairs likely to be required
 3. Slashing of access tracks

Newcastle Gas Storage Facility – Community

Local Community Investment Program – Round 2 FY23

AGL Update

CommBank Stadium. The Eels scored in the first minute of the match on their way to a 30-6 half-time lead.
ROBERT DILLON reports, Back Page

FAREWELL 'OLD GIRL'

The Liddell power station, once the backbone of the national electricity grid, has been switched off after more than 50 years of service. The Hunter Valley coal-fired thermal power facility, which could power the equivalent of more than one million homes, on Friday morning completed a carefully engineered year-long shutdown process when the last of its turbines fell silent. Many of the thousands of Muswellbrook locals who worked at the site over the years gathered to farewell the plant they referred to as "the old girl". **MATTHEW KELLY** reports, P6-7

AGL chief Damien Nicks joined workers in the control room as the final turbine fell silent. Picture AAP
