

Silverton Wind Farm - Environmental Performance Reporting Summary

GE & AGL provide regular reporting on the environmental performance of the Silverton Wind Farm project on the AGL website in accordance with the reporting arrangements in any plans or programs approved under the conditions of this approval.

This document provides a summary of the environmental monitoring and performance of the project for the month of **APRIL 2022**.

Environmental Aspects	Status
Pollution	No issues or complaints during the month.
Noise	No issues or complaints during the month.
Dust and Air	No issues or complaints during the month.
Visual	No issues or complaints during the month.
Soil, water, sediment, erosion	Minor erosion developing on internal site roads, rectification plan in place, to commence in the coming weeks. Rainfall recorded at the site office for the month: 73.5mm.
Birds and Bats	Management actions in accordance with the Bird and Bat Adaptive Management Plan (BBAMP). Monitoring of birds and bats has been conducted in accordance with the BBAMP. Monitoring completed in November 2021. The Bird and Bat Year 2 Monitoring report is drafted and under review. The Bird and Bat Monitoring Report 2018-2020 is included in the 'Annual Environmental Monitoring Reports' section of the AGL Silverton Wind Farm Project website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm .
Biodiversity	Ongoing actions as per the Operational Biodiversity Adaptive Management Plan, Bird and Bat Adaptive Management Plan, Porcupine Grass Sparse Woodland Recovery Plan, Barrier Range Dragon Management Plan, Goat Management Plan, Vegetation Management Plan. No recorded impacts to: Porcupine Grass Sparse Woodland; Mulga/Red Mallee Shrubland; Barrier Range Dragon habitat. Monitoring results are included in the 'Annual Environmental Monitoring Reports' section of the AGL Silverton Wind Farm Project website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm .
Heritage	No disturbance to heritage items/places.
Fire / Bushfire	No fires triggered from wind farm operations.
Waste	Waste is collected, stored and disposed of appropriately. Waste volumes are recorded.
Rehabilitation	Ongoing rehabilitation and weed monitoring in accordance with the Vegetation Management Plan. A weed management contractor attends site quarterly.
Community	No community issues reported. Community meetings and consultation are conducted in accordance with the approval conditions. Community meeting details are included in the 'Community consultative committee (CCC)' section of the AGL Silverton Wind Farm Project website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm .
Other updates	No further updates.
