

Silverton Wind Farm - Environmental Performance Reporting Summary

GE & AGL provide regular reporting on the environmental performance of the Silverton Wind Farm project on the AGL website, in accordance with the reporting arrangements in any plans or programs approved under the conditions of this approval. This is a requirement of Condition 6, Schedule 4, of the project approval conditions.

This Environmental Performance Reporting Summary document provides a summary of the environmental monitoring and performance of the project for the month of **November 2022**.

Environmental Aspects	Status
Pollution	No issues or complaints during the month.
Noise	No issues or complaints during the month.
Dust and Air	No issues or complaints during the month. Light Vehicles only currently onsite, minimal dust is being generated.
Visual	No issues or complaints during the month.
Soil, water, sediment, erosion	No significant erosion on site. Rainfall recorded at the site office for the month: 4mm.
Birds and Bats	Management actions in accordance with the Bird and Bat Adaptive Management Plan (BBAMP). Monitoring of birds and bats has been conducted in accordance with the BBAMP. The Year 2 B&B Monitoring Report is being reviewed by NSW DPE. Monitoring reports are included in the 'Environmental Monitoring Reports' section of the AGL Silverton Wind Farm website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm/documents .
Biodiversity	Ongoing actions as per the Operational Biodiversity Adaptive Management Plan, Bird and Bat Adaptive Management Plan, Porcupine Grass Sparse Woodland Recovery Plan, Barrier Range Dragon Management Plan, Goat Management Plan, Vegetation Management Plan. No recorded impacts to: Porcupine Grass Sparse Woodland; Mulga/Red Mallee Shrubland; Barrier Range Dragon habitat. Barrier Range Dragon monitoring has been re-evaluated to five-yearly increments as per approval from the NSW DPE. The Vegetation Monitoring Report is being prepared. Monitoring reports are included in the 'Environmental Monitoring Reports' section of the AGL Silverton Wind Farm website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm/documents .
Heritage	No disturbance to heritage items/places.
Fire / Bushfire	No fires triggered from wind farm operations.
Waste	Waste is collected, stored and disposed of appropriately. Waste volumes are recorded.
Rehabilitation	Ongoing rehabilitation and weed monitoring in accordance with the Vegetation Management Plan. New local weed contractor has been engaged and attending site early next month to undertake full site survey and weed control.
Community	CCC meeting details are included in the 'Community' section of the AGL Silverton Wind Farm website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm/documents .
