

Silverton Wind Farm - Environmental Performance Reporting Summary

GE & AGL provide regular reporting on the environmental performance of the Silverton Wind Farm project on the AGL website, in accordance with the reporting arrangements in any plans or programs approved under the conditions of this approval. This is a requirement of Condition 6, Schedule 4, of the project approval conditions.

This Environmental Performance Reporting Summary document provides a summary of the environmental monitoring and performance of the project for the month of **March 2024**.

Environmental Aspects	Status
Pollution	No issues or complaints during the month.
Noise	No issues or complaints during the month.
Dust and Air	No issues or complaints during the month. Light vehicles onsite only, dust has been kept to a minimum.
Visual	No issues or complaints during the month.
Soil, water, sediment, erosion	No erosion on site resulting in environmental impacts. Erosion controls in place are working well. Rainfall recorded at the site office for the month: 34.5mm.
Birds and Bats	<p>Management actions conducted in accordance with the Bird and Bat Adaptive Management Plan (BBAMP). The Year 2 Monitoring Report is waiting review by NSW DPE. Currently working through updates to the BBAMP, once complete this will allow the review for the Year 2 Monitoring report to re-commence. Successful meeting with BCD to ensure the required updates are being implemented in the plan. Plans are still under review.</p> <p>Monitoring reports are included in the 'Environmental Monitoring Reports' section of the AGL Silverton Wind Farm website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm/documents.</p>
Biodiversity	<p>Ongoing actions conducted as per the Operational Biodiversity Adaptive Management Plan, Bird and Bat Adaptive Management Plan, Porcupine Grass Sparse Woodland Recovery Plan, Barrier Range Dragon Management Plan, Goat Management Plan, Vegetation Management Plan. No recorded impacts to: Porcupine Grass Sparse Woodland; Mulga/Red Mallee Shrubland; Barrier Range Dragon habitat.</p> <p>Barrier Range Dragon monitoring has been re-evaluated to five-yearly increments as per approval from the NSW DPE.</p> <p>The Vegetation Monitoring Report Year 2 – report has been submitted to the BCD and the DPE for review. Still waiting on comments from the Departments.</p> <p>Monitoring reports are included in the 'Environmental Monitoring Reports' section of the AGL Silverton Wind Farm website: https://www.agl.com.au/about-agl/how-we-source-energy/silverton-wind-farm/documents.</p>
Heritage	No disturbance to heritage items/places.
Fire / Bushfire	No fires triggered from wind farm operations.
Waste	Waste is collected, stored and disposed of appropriately. Waste volumes are recorded.
Rehabilitation	<p>Ongoing rehabilitation and weed monitoring in accordance with the Vegetation Management Plan.</p> <p>A local weed contractor has been engaged.</p> <p>Re-growth in rehabilitated areas is progressing well.</p>
